

Every trader should have a **virtual dedicated server (VPS)** in his asset, but what is it for? VPS is needed in order to ensure the smooth operation of the advisors. Any trader wants to automate his trading, and in order for the Expert Advisor to work 24 hours a day, you need a dedicated server (VPS). Finding such a trading robot so that it makes a profit is not a problem, but here we will analyze how to choose a VPS for this adviser.

A **dedicated server (VPS)** is essentially the same computer as you have at home. The only difference is that he has server hardware, which is why he does not crash, does not hang, although this often happens with a regular user computer. If you suddenly have a crash and your computer turns off, then your VPS will continue to work and, accordingly, if you use a trading expert adviser there, it will not stop working. This is very important, because it greatly affects the results of automatic trading. In this section you can find the best options.

1. [govpsfx](#) - one of the most convenient options. And all because they provide a free dedicated VPS server. All you have to do is register using their broker link or open a new account with their promo code and deposit your account with at least \$ 30. This is the best option that you can find, but there are restrictions besides this account, you cannot trade on other accounts, only on those accounts that were opened using the govpsfx promo code or their affiliate link. These are serious restrictions that are placed in a narrow framework.

On the other hand, if you wish, you can pay and rent a paid dedicated server (VPS) at any time, where there are no restrictions on this, and the prices are quite affordable:

VPS Start	VPS Classic	VPS Expert	Test VPS
2.85 \$	7.5 \$	11.85 \$	3 days
Total amount	Total amount	Total amount	Total amount
<ul style="list-style-type: none">✓ 1 CPU 3,0 GHZ✓ OPERAS. MEMORY 1 GB✓ SSD CAPACITY 20 GB✓ WINDOWS SERVER 2012 R2✓ 1-3 MT4/MT5 TERMINALS✓ UNLIMITED TRAFFIC	<ul style="list-style-type: none">✓ 2 CPU 3,0 GHZ✓ OPERAS. MEMORY 2 GB✓ SSD CAPACITY 30 GB✓ WINDOWS SERVER 2012 R2✓ 2-5 TERMINALS MT4/MT5✓ UNLIMITED TRAFFIC	<ul style="list-style-type: none">✓ 3 CPU 3,0 GHZ✓ OPERAS. MEMORY 3 GB✓ SSD CAPACITY 40 GB✓ WINDOWS SERVER 2012 R2✓ 4-8 MT4/MT5 TERMINALS✓ UNLIMITED TRAFFIC	<ul style="list-style-type: none">✓ 2 CPU 3,0 GHZ✓ OPERAS. MEMORY 2 GB✓ SSD CAPACITY 30 GB✓ WINDOWS SERVER 2012 R2✓ 2-5 MT4/MT5 TERMINALS✓ UNLIMITED TRAFFIC
Location France	Location Netherlands	Location Netherlands	VPS Classic
- Rental period -	- Rental period -	- Rental period -	Location Netherlands
Promo code	Promo code	Promo code	Trading account number
Apply Code	Apply Code	Apply Code	Broker's name
Order a server	Order a server	Order a server	How did you find out about us
			Order a server

2. VPS server from [zomro](#) is one of the most affordable options where you can choose a fairly powerful server for a fairly modest amount of money. When you see their prices, you will understand that this is more than enough:

3.75€/mon. MICRO	5.49€/mon. ADVANCED	12.79€/mon. MEGA
CPU 1 core Intel Xeon	CPU 2 cores Intel Xeon	CPU 3 cores Intel Xeon
Port 250 Mbps	Port 250 Mbps	Port 250 Mbps
RAM 1024 Mb	RAM 2048 Mb	RAM 8192 Mb
SSD <input checked="" type="checkbox"/> NVMe 20 Gb	SSD <input checked="" type="checkbox"/> NVMe 20 Gb	SSD <input checked="" type="checkbox"/> NVMe 40 Gb
DDoS Protection <input type="checkbox"/>	DDoS Protection <input type="checkbox"/>	DDoS Protection <input checked="" type="checkbox"/>
OS Linux & Windows	OS Linux & Windows	OS Linux & Windows
Order period 1 month	Order period 1 month	Order period 1 month
BUY NOW	BUY NOW	BUY NOW

We often use Mega pack with NvME and Ram 8gb

These are the most budget options, but there are more interesting ones. The location of the servers is the Netherlands. **We recommend for best working choose vps with NvME on Windows 2012 then you will not have problems with eas with msimg32.dll**

Zomro are the best option for this brokers: Alpari, FBS, Roboforex.

3. VPS servers from [digitalforex](#) one of the most convenient solutions because when rent vps you can choose Jiadaforex (vps B) and you will receive vps for eas from vps B (JD)

Operating System

Windows Server 2012

Windows Server 2012

Windows Server 2012 (Jiadaforex)

In addition, the advantage [digitalforex](#) that you can choose the location of the VPS server you will have this menu:

Server Location

New York

New York

Singapore

Amsterdam

Tokyo

London

Paris

Frankfurt

Sydney

The advantage of this choice is that you can significantly reduce the ping to your broker's servers, which is required for some high-frequency Expert Advisors. You will be able to choose the right server, which will be in the country where the broker's servers are. This is an advantage [digitalforex](#) in front of [zomro](#), which have servers in Netherlands.

On [digitalforex](#) can rent server for test on 7 days only for 1,99\$ and see how it working.

The all this vps providers don't have problems with expert advisors which are unlocked with msimg32.dll

MyFxlab
